

Free Temporary Fencing!

Temporary fencing is an easy solution to control livestock movement & protect water bodies on your property while improving the quality and productivity of your pasture.

For livestock owners it can be a challenge to navigate between wet soggy pastures and the start of grazing season.

Please contact the Skagit Conservation District to sign up now for free temporary fencing that will keep animals out of low-lying areas.

Call today! (360) 428-4313 or email Jeff Frazier at jeff@skagited.org

Assistance with installing temporary fencing is available upon request.
