_____ City

_____ State _____ Zip

Email: _____

As a Stream Team Volunteer, what activities are you most interested in?

_____ Collecting water quality data in the field (may require walking on rocky and/or uneven terrain)

_____ Conducting water quality tests at the Padilla Bay lab facility (Samish, Fisher, & Padilla Bay teams ONLY)

Which of the streams listed below are you most interested in monitoring? (Please note, these may change) (Prioritize as 1, 2, 3, 4, or 5 with 1 being your first choice):

- _____ Samish Watershed
- _____ Padilla Bay Watershed
- _____ Fisher Creek
- _____ Kulshan Creek
- _____ Trumpeter Basin
- _____ Gages Slough
- _____ Nookachamps Creek

"I am 18 years of age or older, am willing to participate in the Stream Team Training events on September 7th, 8th, and 10th and am willing to contribute 2 to 4 hours a month as a Stream Team Volunteer."

Skagit Waterways Need Your Help!

Skagit County is blessed with a myriad of streams, lake, and rivers. Not only are these waterways our source for drinking water, but we also use them for irrigation, agriculture, industry, hydroelectric dams, and recreation. Monitoring on a regular basis is an essential element to help assess the health of our local waterways, to document changes in stream health over time, to detect pollution problems before a crisis occurs, and to track progress towards improvement. You can help protect our legacy of clean water by participating in the **Skagit Stream Team Program!**

The Skagit Stream Team is a partnership of local citizens, Skagit Conservation District, the Padilla Bay National Estuarine Research Reserve, the City of Mount Vernon, City of Burlington, City of Sedro-Woolley, City of Anacortes, & Skagit County

How it Works:

- Stream Team volunteers participate in an annual 3 day training event taught by local professionals and held in September of each year.
- Stream Team volunteers monitor streams located in the Samish Bay, Padilla Bay, Fisher Creek, Gages Slough, Brickyard Creek, Kulshan Creek, Nookachamps Creek, and the Trumpeter basin.
- Volunteers are supplied with a handbook, equipment, supplies, and technical assistance.
- Volunteers are responsible for either collecting and recording water quality data in the field or conducting testing in the lab **on a monthly basis from October through June.**
- Volunteers learn sampling and analytical techniques used by environmental professionals.
- Volunteers have the opportunity to learn new skills, gain new insights, network with local experts, meet new friends, and participate in a worthwhile community program.

2011 SKAGIT STREAM TEAM TRAINING DATES:

Wednesday, September 7th

6:00 p.m. - 8:30 p.m.

Thursday, September 8th

6:00 p.m. - 8:30 p.m.

Saturday, September 10th

9:00 a.m. - 3:30 p.m.

New volunteers must attend all three sessions

PRE-REGISTER by September 2nd, 2011

Training will be held at the Padilla Bay

Interpretive Center, 10441 Bay View

Edison Road, Mount Vernon
